Striving Against Starvation – March/April 2020

Sponsored by

Beta Charitable Trust

ORGANIZATIONAL BACKGROUND

Centres for Health and Education Programmes (CHEPs) is a registered Non-Governmental Organization (NGO) in Kenya. Our goal is to empower, promote access and improve quality of health and education for the benefit of under resourced individuals and communities

CHEPs envisions the underprivileged across Kenya empowered with equal access to quality health and education services, improved agriculture and environment for a dignified lifestyle. Our mission is to empower the underprivileged individuals and communities of Kenya, while instilling hope and dignity, by providing sustainable and quality health, education, agriculture, environment conservation, development and humanitarian projects through local initiatives, resources, and involvement of local volunteers willing to serve the community

INTRODUCTION

Kenya is currently facing severe food insecurity. With failure of rains when they were expected last year and subsequently floods that destroyed infrastructure and farms, the year 2019 saw very little food production and exhaustion of food reserves. This year, the country is experiencing the worst locust infestation in 70 years causing widespread destruction of farms adding injury to an already ailing country further potentially leading to severe famine. And now, with the fast spreading Corona virus pandemic, governments are shifting focus away from the ongoing food insecurity to preparedness for and response to the virus. Marginalized communities are quickly finding themselves at the risk of starvation.

Chakama, located in remote Kilifi County, is one of such locations where communities are living in extreme poverty and at the risk of starvation. For many years the villages in Chakama have been neglected therefore having poor accessibility due to lack of basic infrastructure such as roads. Trade is therefore minimal. They are also uneducated and unemployed, having little economic activities to earn a living. They mostly rely on subsistent farming to obtain food but due to harsh environmental and climatic factors, they grow very little. Furthermore, the little they are able to grow is commonly destroyed by free moving domestic as well as wild animals, pests, drought and floods.

In order to avert potential loss of lives, through support from Beta Charitable Trust, CHEPs distributed over **15 tons** of emergency supplies to **600** of the most vulnerable households in Chakama. This included 24kg of food to each, 2 bottles of drinking water purification chemicals, 2 bars of soap and a 20L bucket for drinking water storage. They also received seeds to grow their own food and were educated on ways to prevent the spread of COVID 19 including hand washing and social distancing.

This distribution was conducted over 2 weeks through door to door home visits and strictly adhering to safety measures to prevent COVID 19 spread including social distancing, and hygiene. The **600 households** that benefitted came from 14 villages in Chakama location with priority given to the elderly, weak and widows.

Motorcycles were used during the exercise to deliver the supplies door to door and to access the most remote and marginalized households. This was done in order to avoid crowding which would risk the spread of COVID-19 as well as to uphold the highest level of dignity for the beneficiaries.

Delivering of supplies

Villagers were also educated on hand hygiene and means of preventing COVID 19 spread

Villagers practice proper hand washing

We used motorcycles in order to access the most marginalized households through door to door visits while maintaining hygiene and social distancing in order to avoid risking the spread of COVID-19

They rode through difficult mud...

...crossed rivers...

...up very steep hills...

...extreme terrain, all in the spirit of delivering food to the most marginalized.

Even frequent accidents and regular motorcycle break downs could not deter from their mission

Villages across the crocodile infested river Galana were not forgotten

Photo gallery of beneficiaries

Priority was given to the weak and disabled, elderly and widows.

THE ORGANISATION ENCHARGE
CHEPS KENTA

RE: LETTER OF APPRECIATION

I would like to thank your organisation Cheps Kenya for standing with the people of Chakama during this trying time in history. We have received food supply for over 600 families that are very needy and going through tough economic times.

I would also like to note that the villagers received water treatment kits, Buckets for water storage, Hands washing soap and seeds.

The villagers were also trained about COVID-19 prevention practices including hands washing practices and social distancing.

The distribution process was door to door hence safe and convenient for the villagers. The exercise was transparent, fair and very dignified.

We thank you for that.

We would like to appeal that your organisation keeps this exercise going through out this quarantine period to support families and the government initiative to limit.

movement of our people.

Once again thank you for all that you have done for the people of Chakama over the years.

We pray that God continues to help you as you strive to help others.

Thank you
yours faithfully,

Mwaringal

Total: 600 families		5439 people	14 villages

Acknowledgement

We are grateful to Beta Charitable Trust for sponsoring this relief food distribution. The support went a long way in providing much needed relief to 600 needy families in Chakama. The variety of foodstuff was narrowed down from what we had earlier proposed in order to stretch the budget to as many people as possible. While on the ground we have realized that the need is quite desperate. This food will last them a short while, yet the current uncertainties are expected to last much longer meaning the families will go hungry very soon. Furthermore, there are many more families that we did not manage to serve with the limited resources. We look forward to futher support.
